"Having attended NAFA for more than 20 years, I return because of the excellent speakers/topics, the wonderful meeting facility, the tremendous locations, and a wonderfully organized program."

Theodore Searle, CRNA

"I've been coming to NAFA meetings for over 20 years. They have always offered new information and inspired me to maintain a level of excitement about my my chosen profession."

Katherine Linden, CRNA

"The lectures are wonderful, informative, and cutting edge. The faculty is approachable and available to answer questions. Overall, a solid 5 out of 5 stars to NAFA!"

Patrick Taylor, CRNA

WELCOME TO NAFA 2017

Fellow Colleagues,

As America's health care organizations have expanded the roles of nurses, it has created a need for increased knowledge and skills for clinical and administrative leadership across a broad spectrum of health care delivery services.

Nurse Anesthesiology Faculty Associates (NAFA) continues to set the standard in offering high-quality continuing education opportunities and credit hours for anesthesia providers.

Our long-standing commitment to enhancing patient safety remains the same. This year, we look forward to seeing familiar faces and meeting new ones at our popular and diverse locations. We like to mix professional education and a little fun with peers wherever we go, whether that's skiing in the winter, the beach in the summer, or a parade down Main Street U.S.A. at Walt Disney World. NAFA events offer attendees enriching experiences built on three key ideals: Quality, Value and Service.

We invite you to take a closer look at our calendar of events for 2017. You can also visit our website at www.nafa-va.org for complete conference details, as well as shared experiences from past attendees.

NAFA is the continuing education arm of Virginia Commonwealth University's Department of Nurse Anesthesia, where we live by a simple mission: "Our Passion is Making Patient Safety Real." We are excited to continue that mission in 2017 and look forward to seeing you this year.

Best regards,
Michael D. Fallacaro, CRNA, DNS, FAAN and CEO NAFA

Boyd Phillips, CRNA

"I have attended five NAFA conferences. I am always impressed by the enthusiastic, highly qualified speakers they bring to their courses. I leave the conferences feeling professional, refreshed, and invigorated."
